PROJECTS

E-commerce

code: [zyadessa2/react-e-commers: e-commers \(github.com\)](#)

live demo: [React App \(zyadessa2.github.io\)](#)

Responsive e-commers app Created using React, bootstrap, Stripe, Formik, Yup,react-query, Strapi, and Context , ... to build this entire application. This application will allow you to add products into a cart, have a form to fill out information and make payments through Stripe with a backend supported by Strapi, with real backend product

- Integration with route API.
- Define project architecture for front-end using React.
- Design project state management using Context.
- Build user authentication using Formik and Yup
- Common Skills I have Used To Build This App
- React.js
- Hooks and Class Component
- Bootstrap
- Axios
- Formik
- Yup
- React-query

weather API

Code: [zyadessa2/weather-API \(github.com\)](https://github.com/zyadessa2/weather-API)

Live Demo: [Weather \(zyadessa2.github.io\)](https://zyadessa2.github.io/Weather)

Weather App This is a weather program that shows you the weather condition for the first 3 days and displays the temperature, wind speed, and some other details on the first day.

that Depends on API || I Use (HTML , CSS , JavaScript , Json , BootStrap , Apl weather)

- Depends on Weather-API
- HTML
- CSS
- JavaScript
- Bootstrap
- jQuery
- Responsive Web Design

login System

Code: [zyadessa2/Login-System \(github.com\)](https://github.com/zyadessa2/Login-System)

Live Demo: [samrt login \(zyadessa2.github.io\)](https://samrtlogin.github.io)

Fully responsive login System you can signup with name,email and password and signin with email and password that Depends on local storage

- HTML
- CSS
- JavaScript
- jQuery
- Bootstrap

Store Management System (CRUDS)

Code: [zyadessa2/CRUD \(github.com\)](https://github.com/zyadessa2/CRUD)

Live Demo : [CRUDS \(zyadessa2.github.io\)](https://zyadessa2.github.io/CRUDS)

Have built CRUDS System and Learned how to create (Create, Read, Update, Delete, and Search) on the CRUDS application with plain JavaScript. We are not going to use any JavaScript frameworks instead we

use plain JavaScript, CSS, and HTML to build a CRUD application.

- Common Skills I have been Used
- HTML
- CSS
- Bootstarp
- JavaScript
- LocalStorage

responsive web design | landing page

i use HTML , CSS , Bootstrap to create this website ,fully responsive

Live view: <https://zyadessa2.github.io/responsive-website/#home>

Skills: HTML5 · Cascading Style Sheets (CSS) · Bootstrap · Responsive Web Design

VOLUNTEERISM / COMMUNITY LEADERSHIP

- I was a volunteer at YLY affiliated with the Ministry of Youth and Sports, and I was the head of the montage, and I participated in organizing many conferences in which Minister Ashraf Sobhy and others participated

Skills

- Communications Skills
- Fast self-learner
- Presentations Skills.
- Problem solving skills
